Guthrie Declares Second Interim Dividend

Reward for shareholders following the Group's healthy cash flow generation and disciplined capital management

---

Petaling Jaya, 24 November 2026 – Guthrie today declared a second interim dividend of 11.50 sen per share, amounting to RM795 million, reflecting the Group's strong cash generation, resilient balance sheet and disciplined capital management, while delivering value to shareholders. The dividend will be payable on 28 January 2027 to shareholders whose names appear in the Record of Depositors at the close of business on 14 January 2027.

Together with dividends declared earlier in the financial year, the second interim dividend brings total distributions to shareholders for FY2026 to 22.68 sen per share, or approximately RM1.57 billion.

Guthrie has delivered approximately 10.02% in total shareholder return (TSR) from 1 January to 30 September 2026[1], through a combination of share price appreciation and dividends. The second interim dividend declared today builds up on this track record of shareholder value creation, while preserving the Group's financial capacity to invest in its strategic growth priorities.

Chairman Tan Sri Dr Nik Norzrul Thani Nik Hassan Thani said the second interim dividend shows the Board's commitment to a consistent and disciplined approach to shareholder returns.

"The second interim dividend reflects the strength of Guthrie's financial position and its commitment to ensuring that shareholders participate directly in the value the Group creates. It follows the Group's continued cash flow generation and disciplined capital allocation, which enables Guthrie to deliver shareholder returns while maintaining the financial flexibility to invest for future growth," he said.

Tan Sri Nik said the distribution was made possible by the Group's resilient balance sheet and healthy cash generation, and expressed his appreciation to all shareholders for their long-standing support.

"We remain committed to earning that trust by delivering sustainable performance, maintaining capital discipline and creating long-term value for all shareholders," he said.
